2011 Redistricting Plan

Klickitat County, in accordance with RCW 36.32, is proposing to adjust the county commissioner district boundaries. RCW 36.32.020 states "The board of county commissioners of each county shall divide their county into three commissioner districts so that each district shall comprise as nearly as possible one-third of the population of the county: PROVIDED, That the territory comprised in any voting precincts of such districts shall remain compact, and shall not be divided by the lines of said districts."

The Census information received from Washington State Redistricting Commission in April of this year reported that Klickitat County has a population of 20,318 residents.

Commissioner District 1 currently contains 7,383 residents, District 2 contains 6,835 residents, and District 3 contains 6,100.

Due to population growth in District 1, it is necessary to reduce the geographical size of the district. This redistricting plan proposes moving a small portion of Trout Lake and all of the Glenwood area into District 2.

District 2 would then need to reduce in geographical size and District 3 would need to increase in geographical size. This plan would remove the area around Centerville and a small area southeast of Goldendale from District 2 and add it to District 3.

Commissioner District 1 will contain 6,737 residents, Commissioner District 2 will contain 6,762 residents, and Commissioner District 3 will contain 6,819 residents.

A legal description and detailed map of each County Commissioner District are included in pages 2-11 of this document.

Current incumbent office holders will be unaffected by this proposed Redistricting Plan.
